Course Outline

This package includes these courses

- Adobe Photoshop Course Online (30 Hours)
- Photoshop Advanced Course Online (12 Hours)

Adobe Photoshop Course Online

Learn how to retouch and color correct photos, combine images, and create graphics in Photoshop. This course covers the basic and intermediate features of Photoshop such as color/contrast, photo retouching, layers, masks, filters, and saving files for web/video/print.

- Learn to retouch photos and design graphics
- Enhance images by adjusting color, brightness, and contrast
- Use selections to edit specific areas of an image
- Prepare images for digital, web, video, or print formats
- Simplify edits with adjustment layers
- Remove backgrounds using layer masks
- Sharpen and refine photos
- Apply visual effects with filters, shadows, blend modes, and more

Photoshop Advanced Course Online

Take your Photoshop skills to the next level in this advanced Photoshop course. Learn to create precise selections, including hair, retouch skin, refine color, work with channels, use the Pen tool for vector workflows, and realistically composite multiple images, plus much more.

- Master advanced color correction and masking techniques

- Combine multiple images to produce realistic composites
- Create complex selections (including hair) using Select and Mask, channels, and other tools
- Apply blending modes effectively in real-world scenarios
- Perform professional-quality skin retouching
- Use the Pen tool for vector masks and precise clipping paths
- Explore Photoshop’s Generative AI capabilities
